Collection «Que sais-je?» Best Selections

Newly added contents further broaden the world of JapanKnowledge. Three KADOKAWA contents are available!

Shinpen Kokka Taikan (Comprehensive Encyclopedia of Japanese Waka Poetry New Edition) [KADOKAWA] 新編国歌大観
The encyclopedia includes 1,162 anthologies, such as “Chokusenshu (21 Imperial Collections)” “Shisenshu (Personal Collections)” “Shikashu (Private Collections)” and “Uta-awase (WAKA Competition).” Not only can you search by title and author, but also from the reading form or the vocabulary of the WAKA and Kanshi. To find the needed information more quickly, you can also narrow down your search results to a specific anthology, category or period.

Kadokawa Kogo Daijiten (The Great Dictionary of Archaic Japanese) [KADOKAWA] 角川古語大辞典
From common language to terminology and proper nouns, this dictionary contains 100,000 old vocabulary items. While it is, of course, possible to conduct searches using the historical kana as well as by the pronunciations equivalent to these spellings (modern kana readings), search convenience has also been enhanced by the addition, for example, of search keys for contracted sounds, double consonants and voiced or unvoiced consonants. You will be able to conduct searches from various viewpoints, such as designating example sentences or source information in advanced searches.

Shinpan Kadokawa Nihon Chimei Daijiten (The Great Dictionary of Japanese Place Names [New Edition]) [KADOKAWA] 新版 角川日本地名大辞典
About 10,000 new place names are available from “The Great Heisei Merger.” The dictionary covers all Japanese place names up to December 2010. It is possible to narrow down searches by prefecture, historical period and former country name. The data will be regularly updated. New place names due to city mergers, cities designated by government ordinance, and establishments of new municipal systems will be added.

Sekai Daihyakkajiten (Heibonsha's World Encyclopedia) [Heibonsha] 改訂新版世界大百科事典
With about 90,000 entries and 420,000 index terms compiled by 7,000 contributors, subjects are exhaustively covered; some important entries are equivalent to a stand-alone book (the largest containing about 60,000 characters). In addition to its extensive volume of information and trustworthiness, this work features a clearly unique perspective that places it among the world’s most highly acclaimed encyclopedias.
■ Cross-searching between two authoritative Japanese encyclopedias.
Immediate access to entries in both the Encyclopedia Nipponica and Heibonsha’s World Encyclopedia enables easy comparisons and the acquisition of an even deeper understanding of the subject. A formidable pair, indispensable in a library’s reference resources.
** To use the cross-reference link feature, it is necessary to have contracts to access both the encyclopedias.*

Encyclopedia of Japanese History (Kokushi Daijiten) [Yoshikawa Kobunkan] 国史大辞典
The entire scope of Japanese history is covered, including entries on archaeology, culture, and geography. All 15-volumes of the biggest encyclopedia on Japanese history are digitized.
■ Search from more than 7,000 illustrations.
Titles and explanations for about 7,100 illustration resources are directly searchable.

Encyclopedia of Japanese Historical Place Names (Nihon Rekishi Chimei Taikei) [Heibonsha] 日本歴史地名大系
The definitive work on historical place names in Japan, collecting the fruits of research on local and regional geography. Contains 140,000 entries on place names in all of Japan’s prefectures, with a special emphasis on the historic city of Kyoto.
■ Contains information on names changes.
This work includes information on changes in names of places as a result of municipal mergers, incorporation, change of status to government-ordinance-designated city, etc.

These contents listed above can be used as stand-alone plans or as JK Lib integrated plans.

From inquiry to post-installation support

- A free trial period is available for JapanKnowledge.
- Every year, a **free access period** of 1-2 weeks is provided. Take advantage of this opportunity to use JapanKnowledge for lectures, workshops, etc.
- We provide materials (printed matter) on **using JapanKnowledge, making out reports**, etc.
- We also provide bibliographic data.

*Bibliographic data (CAT-P format) is available for all contents included in JapanKnowledge. These can be downloaded from <https://japanknowledge.com/library/materials03.html>
When you register for this URL, you will be able to directly call up book series and journal contents from your OPAC system.

Rich set of collaborative functions

- **VPN** may be freely configured as long as security measures stipulated in the JapanKnowledge agreement are strictly followed.
- Support is provided for NII’s **GakuNin system** (academic authentication federation/Shibboleth).
- Support is provided for a variety of **discovery services**.

◆ JapanKnowledge for personal use

JapanKnowledge can be used as a service for individuals in their homes and outside.

- **JK Personal** (annual subscription fee: 15,000 yen/consumption tax not included)
- **JK Personal “plus R”** (annual subscription fee: 20,000 yen/consumption tax not included)

** This service is for personal use. Please note that the terms of use are different from organizations such as universities, public libraries, etc.*

⇒ **For more information about the registration procedures and soon for this service, please visit the JapanKnowledge Personal website (<https://japanknowledge.com/personal/>).**
